**Subject:** Market Model

Hi Jessica,

This is just a quick courtesy email to let you know that I have spoken with Robert Pullella in relation to your request for the market summary model that we have been putting together.

I am just in the process of ensuring that we have not included any commercially sensitive information in the model and that we have clarification from the IMO around the composition of their retail market share values (with regard to the inclusion or exclusion of contestable and non-contestable customers and bilateral settlements), recently published in the IMO's 2013 Statement of Opportunities, which is available from their website at:

<http://imowa.com.au/soo>

Page 25 and 26 of the SOO considers the Market Share of Market Customers. Pages 109 and 110 provide an indication of generator share on the basis of Capacity Credit allocations, both by facility and Market Participant.

I also need to make sure of the process that I need to follow in providing this information to you i.e., whether you are required to put in a formal, written request asking for the information and so I will aim to be in touch with you very shortly either with the model or with an explanation of the process that I need to follow in order to provide it to you.

Best regards, Nat.

Dr. Natalie Jackson  
Principal Analyst
